Additional Individual Answers (these are individual responses rather than overall consensus responses above; the numbers in parentheses indicate when more than one person shared the same response).

1. What aspects of the course/instruction enhance your learning?

Teaching/personality

- Does a good job explaining in class (2)
- Her friendliness and personable attitude. She makes sure we understand what she's talking about and make sure she understands our point of view
- She is genuine and friendly and it is clear that she wants us to success and do well in the class

Discussions

- We have a lot of discussions where we are able to state our opinions and feelings of current issues in the country
- In class discussion about reading (2)
- Discussing lectures as a class
- I enjoy the group discussions. I like hearing the different opinions (5)

Readings

- The current events we discuss, including assignments that require the class to read the New York Times (3)
- Being required to read (2)
- Explanation of the reading in depth with visuals to understand topic

2. What aspects of the course/instruction could be improved?

Activities

- I would like more activities where we compete against other groups
- I feel there should be more debates in class because this class is directly connected to politics
- More hands on activities
- More interaction and out of class activities
- More group orientated work

Readings

- There are a lot of out of class reading assignments that are discussed briefly in class. A little more in depth discussion would be helpful
- Go over the reading a bit more before we get it. And then as well after to clear up confusion
- Rushed reading, clearer notes
- Not so much long reading (3)
- Less of the same readings over a week; we read 4 articles about economic inequality and all stated the same thing

Handouts

- Fewer handouts. I know she gives them as a way to save us money on books, but I get overwhelmed sometimes with the amount of paper I have
- Not so many graphs and handouts

Other

- Same people always talk
- Technology – somewhat confusing and does not always work

3. What could you do to make the course better for you, your classmates and the instructor?

Participation

- Read and participate more
- Pay more attention in class
- Encourage more class discussions, debates, etc
- I could participate more (6)
- Join in the discussions more

More attention to readings

- Complete the homework – reading assignments (2)
- Take more time to read the homework more thoroughly. Sometimes I get confused easily with the reading we have for homework
- Take notes on the reading
- Have questions prepared for ht reading
- Read more and analyze
