## **Preface**

The 2020-2021 Fact Book is a compilation of information about Tufts University's students, staff, facilities and finances. It is our belief that this information should be available to anyone interested in Tufts University. The data collected here represents the Fall 2020 semester (except when noted); wherever possible, we have also provided historical data.

In response to the COVID-19 global pandemic, Tufts made many operational and educational changes, some of which impacted the data reported in this year's Fact Book. For almost all metrics, we have kept data definitions and reporting methodologies consistent. In the few cases in which data are reported differently, we have indicated the difference in footnotes.

The university is a dynamic entity, and changes occur frequently. The most current version of the Fact Book, which includes updates and corrections, is posted on the Office of Institutional Research website (<http://provost.tufts.edu/institutionalresearch>).

Various University departments are responsible for providing the information presented here. We wish to thank everyone who assisted in this production. As always, we encourage your comments and suggestions.

**University Vision Statement**  
**Adopted by the Board of Trustees, Fall 2013**

**Vision**

To be an innovative university of creative scholars across a broad range of schools who have a profound impact on one another and the world.

**Mission**

Tufts is a student-centered research university dedicated to the creation and application of knowledge. We are committed to providing transformational experiences for students and faculty in an inclusive and collaborative environment where creative scholars generate bold ideas, innovate in the face of complex challenges, and distinguish themselves as active citizens of the world.

# HISTORY

On the eve of what would have been the Commencement ceremony for the Class of 2020, May 16, 2020

## Selected Highlights of 2020

### Major University Events

As COVID-19 continued to sweep across the globe, President Anthony Monaco announced a university lockdown on March 10, 2020. Beginning on March 25th, **university instruction was conducted virtually for the remainder of the semester**. All university-sponsored, connected, or funded domestic and international travel for students, faculty, and staff was prohibited; on-campus events that included external visitors were also prohibited.

In April Tufts announced a **partnership with local health-care providers and its host communities** to make residence halls available to house medical personnel, police, and firefighters, as well as patients, including those recovering from COVID-19, in an effort to help contain the spread of the virus as local hospitals prepared for a surge of cases that threatened to overwhelm their capacity.

Tufts held a university-wide observance of the **Juneteenth holiday** on June 19th. The gathering was an opportunity to mourn Black lives lost due to racial injustice and police violence and to begin exploring how Tufts can become a more equitable university. Breakout sessions and plenaries contributed to a university pledge to find and eradicate structural racism at Tufts.

President Monaco announced in June a plan for the **fall semester undergraduate and graduate programs**. Given COVID-19, the residential campus would open with different format options for students: in-person, virtual, and hybrid. Courses at the School of the Museum of Fine Arts at Tufts would be held virtually, with in-person access to facilities and studios.

In July the university joined an **amicus brief** with several other institutions opposing the efforts of the Trump administration to force international students to leave the U.S. if they only take classes online.

Tufts created an **Institutional Chemical Safety Committee** in August to ensure chemical safety in research, teaching, and training, and be in compliance with federal, state, and local regulations.

In September the university announced that the **presidential portraits hanging in the Coolidge Room** at Ballou Hall would be removed so the space could be reconfigured as a classroom, part of an effort to create additional spaces on campus for in-person classes while allowing for appropriate social distancing required by COVID-19. The Public Art Committee, undertaking a comprehensive audit of art across the Tufts campuses, will have a role in considering appropriate alternative locations for the portraits.

In October, Tufts and the cities of Medford and Somerville partnered to bring **COVID-19 surveillance testing** to public schools using a new, more efficient pooled testing method developed by Tufts in collaboration with Broad Institute of MIT and Harvard, with the aim to make PK-12 education safer, curb the spread of the disease, and sustain in-person education.

Tufts organized a virtual **2020 COVID-19 Research Symposium** in November, during which panelists and dozens of Tufts scientists and their international research and program partners focused on COVID-19's impact on health and society.

Tufts took an additional step to reduce the spread of COVID-19 by **suspending athletics practices** for the remainder of the calendar year.

### Tufts People

In October Tufts announced that former School of Engineering dean and University Professor **Linda Abriola** was leaving Tufts in January to become the Sorensen Family Professor of Engineering at Brown University. Abriola joined Tufts in 2003 as the dean of the School of Engineering, serving for 12 years in that role.

**Bill Gehling**, A74, AG79, A05P, was named the new executive director of the Office of Alumni Relations in March, having served in the role in an interim capacity since April 2019. The former director of athletics, Gehling has been at Tufts for nearly five decades, as a student, soccer coach, and administrator.

It was announced in August that **The Reverend Elyse Nelson Winger**, an ordained minister within the Evangelical Lutheran Church in America, would be the next university chaplain. She joined Tufts from Illinois Wesleyan University, where she has most recently served as the university chaplain and associate dean of students.

In September, **Alan D. Solomont**, A70, A08P, the Pierre and Pamela Omidyar Dean of the Jonathan M. Tisch College of Civic Life, announced that he would retire at the end of the academic year. He served the Tufts community with distinction throughout his lifetime; as a student, alumnus, parent, visiting instructor, university trustee, founding board chair of Tisch College, and for the last seven years as the dean of Tisch College of Civic Life.

### Initiatives

Tufts launched the **Center for Integrated Management of Antimicrobial Resistance** in March to leverage strengths of the university and Tufts Medical Center to research mechanisms of antimicrobial resistance and develop new strategies for treatment and education. In September it was renamed the **Stuart B. Levy Center for Integrated Management of Antimicrobial Resistance** (Levy CIMAR). Levy, a professor emeritus of molecular biology and microbiology at the School of Medicine and a staff physician at Tufts Medical Center who focused on antibiotic resistance, passed away in September 2019 at the age of 80. He retired in 2018 after 47 years at Tufts.

The School of Medicine announced in May an accelerated hybrid **Doctor of Physical Therapy degree program**, the first program of its kind offered by a Massachusetts medical school. The blended learning model allows for virtual and face-to-face instruction, hands-on skill training, and clinical education.

In the spring the Digital Collections and Archives welcomed submissions to the **COVID-19 Documentation Project**, a repository of first-person accounts from alumni, students, faculty, staff, and parents about how the pandemic is changing and challenging lives.

In July Tufts announced the inaugural awards of the **Tufts Initiative on Substance Use and Addiction**, an endowment that supports education, research, and civic engagement initiatives designed to support individuals and families who have been affected by the opioid crisis.

In October Tufts announced an initiative between the Mastercard Foundation and the Talloires Network of Engaged Universities to create **Next Generation Leaders**, a first-of-its-kind virtual community of university student leaders who are committed to civic engagement and social responsibility. The network grew out of a 2005 conference convened by Tufts and is housed in the Jonathan M. Tisch College of Civic Life and chaired by President Anthony Monaco.

### Major awards

In October, the United States Agency for International Development (USAID) announced that Tufts will take the lead on a **five-year, \$100 million** Strategies to Prevent Spillover (STOP Spillover) program, set up to head off future pandemics like COVID-19. Experts from several Tufts schools and 12 partner institutions will work with high-risk countries to strengthen their capacity to develop and use essential knowledge about emerging viruses.

A \$3 million award from the National Science Foundation, announced in November, launches a five-year project called **BigData@Tufts: Educating Policy-Savvy Data Experts and Data-Proficient Decision Makers**. Shafiqul Islam, a professor in the School of Engineering's Department of Civil and Environmental Engineering, and four co-principal investigators from the School of Engineering, the School of Arts and Sciences, and The Fletcher School, will train more than 140 Tufts graduate students to technical, team-building, and professional skills.

### Philanthropy

*Brighter World:* The Campaign for Tufts, eclipsed the \$1 billion milestone of its \$1.5 billion goal in July. Gifts so far include \$220 million for financial aid and close to 50 new gifts for professorships.

In September, Alumnus Jeff Stibel and his partners **donated BrainGate, Inc.** and its patented technology to the university, facilitating research focused on developing a new generation of neurotechnologies. A donation will also launch the Stibel Dennett Consortium, a research hub that will advance the study of brain and cognitive science.

With their spring pledge of \$1 million, Kathy Kwan, A22P, and her husband, Alan Eustace, A22P, set the pace for the **COVID-19 Financial Aid Match**, which spurred generous gifts from five more families, all parents and alumni. Together they set out to match every gift dedicated to undergraduate financial aid, dollar for dollar, up to \$2 million, effectively closing a \$4 million gap in financial aid this year attributed to the severe economic impact of COVID-19.

**Ben Harburg**, A06, managing partner with global investment firm MSA Capital, first donated 350,000 masks to Tufts Medical Center in the spring. When he learned in August that the university would need an estimated 1 million masks to keep students, faculty, and staff well supplied for the fall semester, he quickly purchased and shipped more than 1 million face masks; they arrived in early October.

## Selected Highlights of 2020, Continued

### Notable faculty achievements

**Peter Love**, an associate professor of physics, will lead the university's participation in a major U.S. Department of Energy-funded center called the Quantum Systems Accelerator, led by Lawrence Berkeley National Laboratory. The QSA, one of five new DOE Quantum Information Science research centers announced in August, is funded with \$115 million over five years.

**William Masters**, a food economist at the Friedman School of Nutrition Science and Policy with a secondary appointment in the Department of Economics in the School of Arts and Sciences, in January was named one of five new Agricultural & Applied Economics Association fellows.

In February a Tufts team won one of four grand prizes in the **National Science Foundation's competition** for big ideas to inform its research agenda. **Matthias Scheutz**, a professor of computer science and director of the Human-Robot Interaction Lab, and doctoral candidate **Vasanth Sarathy**, shared the prize for their pioneering work in artificial intelligence.

### Athletics

In January, **John Casey**, A80, G83, associate director of athletics and in his 38th season as head coach of the Jumbos baseball team, was inducted into the American Baseball Coaches Association Hall of Fame.

Men's basketball clinched **its first-ever NESCAC championship**. The top-seeded Tufts team prevailed in double-overtime over second-seeded Colby, 102-94, in Cousens Gym on March 1. Women's basketball had its season cut short due to the pandemic, but senior co-captain **Erica DeCandido**, A20, earned National Player of the Year honors.

The 2020 fall sports teams placed **75 student-athletes** on the New England Small College Athletic Conference (NESCAC) All-Academic Team. The total is third-most in the league and eight more than the previous year.

Men's Cross Country in November competed in a **virtual eight-kilometer race** against three other teams and came out on top. In an event designated as a New England Championship weekend, teams were scored against opponents after running separately on their own courses. Jumbos won over Connecticut College, Williams, and Bates.

<sup>1</sup> The increase in part-time undergraduates in Fall 2018 is due to a change in how credits are accounted for. Previously, undergraduates enrolled in three courses were considered full-time. Starting in Fall 2018, students needed to be enrolled in 12 credit hours in order to be considered full-time.

<sup>2</sup> 1+4 Bridge Year Fellows are Tufts students doing a year of full-time service prior to beginning their academic studies at Tufts. Not in 2020 due to COVID.

<sup>3</sup> Non-degree-seeking students are enrolled in courses but not a degree program.

<sup>4</sup> The Tufts Education Reentry Network (TERN) certificate is a 4-course undergraduate-level program for individuals directly impacted by the carceral system.

<sup>1</sup> Includes only Tufts-sponsored off-campus programs. Does not include students enrolled in non-Tufts study abroad programs. Does not include students learning remotely at home due to COVID-19. Note that in Fall 2020 most of Tufts' study abroad programs were cancelled due to the COVID-19 global pandemic, but one was added to accommodate a small group of international students.

<sup>2</sup> In Fall 2020, 2 transfer students were part-time. All others carried full-time course loads. Transfer students typically do not study abroad during their first semester, but due to the COVID-19 global pandemic, some international transfer students were studying abroad in Fall 2020.

<sup>3</sup> Continuing first-years are students who first attended Tufts University during a previous Fall semester but remain in freshman class standing.

<sup>4</sup> 1+4 Bridge Year Fellows are Tufts students doing a year of full-time service (domestically or abroad), prior to beginning their academics studies at Tufts.

<sup>5</sup> Non-degree-seeking undergraduates are enrolled in undergraduate courses, but are not enrolled in a degree program.

<sup>6</sup> Undergraduate Exchange Students represent degree-seeking students from another institution who are registered at Tufts for the fall term.

<sup>7</sup> Postbaccalaureate Premedical Certificate Students are college graduates who are taking undergraduate pre-health coursework for the first time in preparation for health-related careers or graduate education. In Federal IPEDS reporting, they are considered graduate students.

<sup>8</sup> Tufts Education Reentry Network (TERN) certificate is a 4-course undergraduate-level program for individuals directly impacted by the carceral system.

<sup>3</sup> Both Liberal Arts and Engineering students may major in Engineering Psychology. Figures shown represent students from both schools.  
<sup>4</sup> Offered as a second or third major only.  
<sup>5</sup> Both Liberal Arts and Engineering offer Computer Science degrees; these are itemized separately.  
<sup>6</sup> Other Engineering includes the majors: Engineering, Engineering Science, and No Major.  
<sup>7</sup> Total Undergraduate (Majors) represents the count of majors that students graduated with. Many students had more than one major.  
<sup>8</sup> Total Undergraduate (Degrees) represents the count of degrees that were awarded. Some students receive multiple bachelor’s degrees.  
<sup>9</sup> Total Undergraduate (Students) represents the unduplicated count of students who graduated with bachelor’s degrees in the academic year listed.

<sup>1</sup> Total degrees awarded reflects the number of degrees awarded, not the number of people who received degrees.

<sup>2</sup> Total number of students who graduated. These students could have earned one or more degrees.

<sup>3</sup> In previous Fact Books this total also included post-baccalaureate premedical certificates, which are now included under "Graduate Degrees."

<sup>4</sup> Previously awarded by the SMFA and now awarded by Arts & Sciences.

<sup>5</sup> Includes post-baccalaureate certificates.

<sup>6</sup> Until 2016/17, included a graduate certificate awarded by the College of Special Studies, which is now separately itemized.

<sup>6</sup> These occupational categories are based on those used for reporting to the National Center for Education Statistics (NCES) Integrated Postsecondary Education Data System (IPEDS) Human Resources (HR) Survey. The categories are derived from the 2018 Standard Occupational Classification (SOC) system, a federal statistical standard used by federal agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data (See <https://www.bls.gov/soc/>). The IPEDSHR Occupational Categories collapse SOC codes into broad categories appropriate for higher education (See <https://surveys.nces.ed.gov/ipeds/VisHRSOCBrowse.aspx>). For this table, some additional groups were collapsed for clarity or due to small Ns.

<sup>7</sup> Faculty include only those individuals who are paid directly by Tufts and whose primary appointment is labeled "Faculty." Administrators who have faculty appointments but who are categorized as staff in PeopleSoft are not included in these faculty counts.

Source: Human Resources PeopleSoft database. Accurate as of November 1, 2020. Counts include only those individuals who are paid directly by Tufts and whose primary appointment is labeled "Faculty." Counts do not include all individuals teaching courses nor all individuals who are being paid for faculty work. Administrators who have faculty appointments but who are categorized as staff in PeopleSoft are not included in these data. Counts do not include individuals on long-term disability.

## Part-time Faculty by School, Race/Ethnicity and Gender – All races selected Fall 2020

Faculty are counted in each racial/ethnic category selected. Percents do not total 100%. For details, see <http://provost.tufts.edu/institutionalresearch/race-ethnicity-faq/>.

<sup>4</sup> Three Engineering Computer Science professors hold joint appointments with other schools at Tufts. One joint appointment is with the Fletcher school and two are with A&S (Psychology and Mathematics). These individuals hold tenure in both schools and are counted in both schools.

<sup>5</sup> The total number of AS&E Faculty here represents unique individuals; the joint professors in A&S and EN are counted only once.

<sup>6</sup> The Cummings School of Veterinary Medicine faculty are not eligible for tenure. The faculty shown here include all those with "continuous term" appointments, including those currently serving as university administrators, as well as full-time non-continuous term-track faculty with unmodified titles.

<sup>7</sup> Two Fletcher professors hold joint appointments with other schools at Tufts. One joint appointment is with A&S (History) and one is with EN (Computer Science). These individuals hold tenure in both schools and are counted in both schools.

<sup>8</sup> Friedman SNSP did not offer tenure or tenure-track positions until 2006-07.

Medford / Somerville Campus	169	3,653,503
<b>Grand Total*</b>	<b>242</b>	<b>5,579,006</b>

\*These data include spaces occupied and owned by Tufts University. Square foot totals do not include leased space that is not occupied by Tufts University, retail space and new building construction.

## Energy Emissions

### Tufts University Greenhouse Gas Emissions

Tufts has reduced its carbon emissions in accordance with the Kyoto Protocol (7% below 1990 levels by 2012) and is progressing towards the goals of the New England Governors/Eastern Canadian Premiers Climate Change Action Plan (10% below 1990 levels by 2020 and 75-85% long term) and the Massachusetts Global Warming Solutions Act of 2008 (10-25% below 1990 levels by 2020 and 80% reduction below 1990 by 2050). In 2016, President Tony Monaco signed the Second Nature Climate Commitment, an integrated climate commitment for university leaders on carbon neutrality and resilience. This commits Tufts to reach carbon neutrality (net-zero carbon emissions) by 2050 and create a climate action plan to get there.

FY	GHG Emissions from Energy and Fleet (MTCDE)	Comparison to 1990	GHG Emissions from Scope 1, 2, and 3 (MTCDE)
FY90	50,584		
FY13	54,028	6%	
FY14	45,469	-11%	
FY15	44,876	-12%	
FY16	42,065	-17%	61,625
FY17	44,921	-12%	64,438
FY18	42,817	-16%	61,340
FY19	44,949	-12%	61,159

Data collected by Tufts Office of Sustainability. This data only includes Tufts-owned buildings on the Medford, Boston, and Grafton campuses. Scope 1 and 2 are mainly comprised of energy and fleet. Tufts does not currently have comprehensive Scope 3 data for the years that are blank. Scope 3 emissions are a consequence of the activities of the institution, but occur from sources not owned or controlled by the institution. An example of Scope 3 is air travel by Tufts employees on Tufts business as well as student and employee commuting.

### Tufts University Solid Waste Data in U.S. Tons

These numbers represent mixed recycling and trash bins from classrooms, offices and residential areas in Boston, SMFA, Medford/Somerville, and Grafton campuses. Tufts' four campuses recycle a variety of additional materials, such as mattresses, furniture, tennis balls and electronics, to name a few.

Year	Landfill/ Incinerated	Recycled		Total Recycling	Compost Food Waste	Total Waste	Diversion Rate**
		Mixed Recycling	Other Recycling*				
FY20	2,031	572	94	666	118	2,815	28%

FY15	2,103	752	48	800	305	3,208	34%

\*Other recycling includes computers, batteries and textiles.

\*\*Diversion rate not adjusted for contamination in the mixed recycling stream.

\*\*\*New waste management service in FY18; data collection methodologies across years may not be comparable.

Honorary	28	16	6	0	40

<sup>1</sup> Undergraduate represents the total number of individuals receiving each respective number of degrees. It eliminates any duplicates between A&S and Engineering.

<sup>2</sup> Honorary degree holders include only those honorary degrees that were received by distinguished individuals at commencement, not those who received degrees after not completing coursework due to extenuating circumstances.

<sup>3</sup> This total represents the total number of degrees awarded, not total number of individuals who have received degrees.
