Preface

The 2022-2023 Fact Book is a compilation of information about Tufts University's students, staff, facilities and finances. It is our belief that this information should be available to anyone interested in Tufts University. The data collected here represents the Fall 2022 semester (except when noted); wherever possible, we have also provided historical data. For almost all metrics, we have kept data definitions and reporting methodologies consistent. In the few cases in which data are reported differently, we have indicated the difference in footnotes.

The university is a dynamic entity, and changes occur frequently. The most current version of the Fact Book, which includes updates and corrections, is posted on the Office of Institutional Research website (<http://provost.tufts.edu/institutionalresearch>).

Various University departments are responsible for providing the information presented here. We wish to thank everyone who assisted in this production. As always, we encourage your comments and suggestions.

University Vision Statement Adopted by the Board of Trustees, Fall 2013

Vision

To be an innovative university of creative scholars across a broad range of schools who have a profound impact on one another and the world.

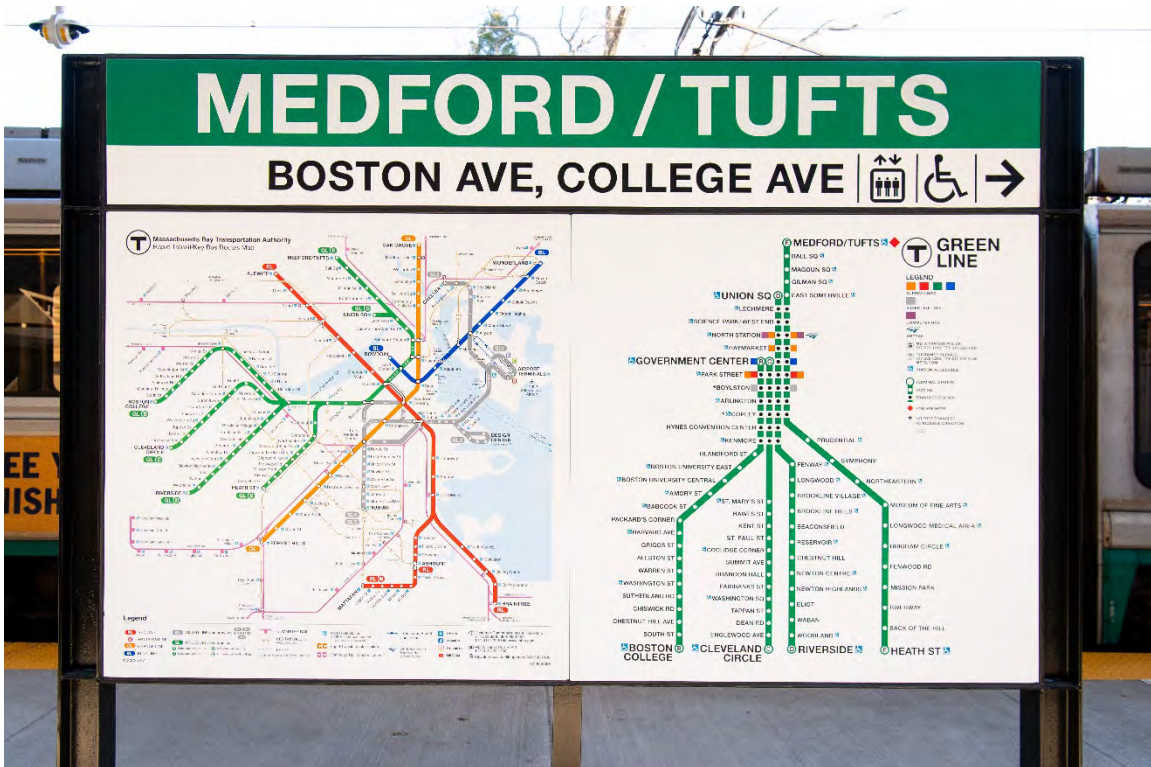

Mission

Tufts is a student-centered research university dedicated to the creation and application of knowledge. We are committed to providing transformational experiences for students and faculty in an inclusive and collaborative environment where creative scholars generate bold ideas, innovate in the face of complex challenges, and distinguish themselves as active citizens of the world.

Selected Highlights of 2022

University Leadership Transitions

President Anthony P. Monaco announced in February that he would step down in 2023 after serving 12 years as the university's leader. In November, Tufts announced that **Sunil Kumar**, provost and senior vice president for academic affairs at Johns Hopkins University, would succeed him. An expert in operations management with a Ph.D. in electrical engineering, Kumar was previously dean of the University of Chicago Booth School of Business.

Vernon Miller, a member of the Thunder Clan from the Omaha Tribe of Nebraska and Iowa, was named the first director of the university's new Indigenous Center in February.

Bernard Arulanandam, vice president for research, economic development, and knowledge enterprise at the University of Texas at San Antonio and a highly regarded immunologist, was named the new vice provost for research in April.

Kyongbum Lee was named the new dean of the School of Engineering at Tufts University in June. The Karol Family Professor had been the school's dean *ad interim*.

Scheri Fultineer, a former dean of the Division of Architecture and Design at the Rhode Island School of Design, was named new dean of the School of the Museum of Fine Arts at Tufts University (SMFA at Tufts) in June.

Christina Economos was named dean *ad interim* of the Friedman School of Nutrition Science and Policy in June. She holds the New Balance Chair in Childhood Nutrition, and chairs the Division of Nutrition Interventions, Communication, and Behavior Change.

Cigdem Talgar, associate vice chancellor in the Educational Innovation division at Northeastern University, was named to the newly created role of vice provost for education in November.

In December Tufts announced that **Monroe France**, senior associate vice president for global engagement and inclusive leadership at New York University, will join the university as its first vice provost for diversity, equity, inclusion, and justice.

University Events

Digital Collections and Archives opened a window on how Black executive leadership has advanced the university over more than 50 years in February. *Leading While Black: A Legacy of Transformational Black Leadership at Tufts University*, a Tisch Library installation, was complemented by a livestreaming event.

In March Tufts announced that Wellforce, the parent company of Tufts Medical Center, would change its name to **Tufts Medicine**, signaling an alignment between the health-care system and the Tufts University School of Medicine "from an educational, research, and clinical translation point of view," said Tufts President Anthony P. Monaco.

Selected Highlights of 2022, Continued

In May, Tufts announced that a **new baseball stadium** would be named in honor of Sol Gittleman, A85P, H10, Alice and Nathan Gantcher University Professor emeritus, and Tufts provost from 1981 to 2002.

Erika Lee, J91, an author, scholar, and leading historian on the immigrant and Asian American experience, delivered the 2022 Commencement address on May 22. **Neil Blumenthal**, A02, co-founder and co-CEO of Warby Parker, delivered the keynote address for the Class of 2020 Commencement on May 27, organized for graduates whose commencement was not held due to COVID-19 precautions.

The **Eliot-Pearson Children's School** at Tufts University celebrated its 100th anniversary in June.

The Office of the Provost announced in July that it will close the **Institute for Global Leadership** (IGL) and move some IGL programs, including EPIIC (Education for Public Inquiry and International Citizenship), to Jonathan M. Tisch College of Civic Life.

Governor Charlie Baker and Governor-Elect Maura Healey came to Tufts on December 12th for a celebration of the new **Medford-Tufts transit station**. The Tufts community, as well as members of the general public, joined them for the event, organized by the Massachusetts Bay Transportation Authority (MBTA) and was held at the Joyce Cummings Center.

University Initiatives and Philanthropy

Tufts held its first classes in the new **Joyce Cummings Center** on the Medford/Somerville campus in January. The multidisciplinary seven-floor building brings together the departments of computer science, economics, and mathematics, as well as the Center for Applied Brain and Cognitive Studies. Construction started in May 2019, thanks to a generous gift from trustee emeritus Bill Cummings, A58, H06, J97P and M97P and his wife, Joyce, H17, J97P, M97P, through their Cummings Foundation.

Tufts in April announced a new **Center for Black Maternal Health and Reproductive Justice**, to be led by founder-director Ndidiamaka Amutah-Onukagha, the Julia A. Okoro Professor of Black Maternal Health at the School of Medicine and an associate professor and assistant dean of diversity, equity, and inclusion in the Department of Public Health and Community Medicine.

Cummings School of Veterinary Medicine officially opened the **Joseph Kelley, DVM Simulation Laboratory** in May, a newly renovated 3,000-square-foot space designed to help veterinary students develop hands-on skills and enable them to feel competent and confident in their clinical abilities.

The Tufts University Center for Cellular Agriculture (TUCCA) in October announced the **TUCCA Consortium**, which brings together both industry and nonprofit members to support research in a field that involves creating meat products from the growth of cells in bioreactors.

Selected Highlights of 2022, Continued

In November, the university announced plans to build a **new undergraduate residence hall** for juniors and seniors on the Medford/Somerville campus. The Boston Avenue building will include a ground-floor retail space open to the public.

Faculty, Student and Staff Accomplishments

Karen Freund, Physician-in-Chief at Tufts Medical Center and the Sheldon M. Wolff Professor and chair of the Department of Medicine at the School of Medicine, received the 2022 Robert J. Glaser Award from the Society of General Internal Medicine in March.

Diane Ryan, associate dean for programs and administration at the Jonathan M. Tisch College of Civic Life, was inducted into the U.S. Army Women's Foundation Hall of Fame in March in recognition of her 29-year career in the Army (she retired as a colonel in 2017) and her work supporting women.

In March, Tufts University was named among the country's **top producers of Fulbright U.S. students** in 2021-2022 by the U.S. Department of State's Bureau of Educational and Cultural Affairs. In all, 11 current and former students earned Fulbright awards to study in eight countries.

Gerard “Jerry” Sheehan, a longtime administrative leader at The Fletcher School, was awarded the Hosea Ballou Medal in recognition of his dedication and impact over nearly four decades of service to the university. In May

Athletics

Karl Gregor, who guided the Tufts men's tennis team to the NCAA Final Four for the first time in program history, was named as the Wilson Intercollegiate Tennis Association (ITA) Division III National Coach of the Year in June. Earlier, he also received the New England Small College Athletic Conference (NESCAC) Coach of the Year award and was named as the ITA's Northeast Region Coach of the Year following the most successful season in the program's history.

In June Tufts' **athletics program** won—for the first time—the prestigious Learfield Directors' Cup for NCAA Division III for 2021-2022, topping more than 400 colleges and universities in this national competition. The Directors' Cup is awarded to the athletics program with the most broad-based participation and success in postseason competition, and the victory highlights the wide array of high-performing teams and student-athletes at Tufts.

Remembrances

Rocco “Rocky” Carzo, legendary former director of athletics and head football coach, died on January 16. Hired as head football coach in 1966, Carzo was promoted to athletic director in 1973, retiring in 1999. He was a member of the first class of inductees into the Tufts Athletics Hall of Fame in 2018.

Selected Highlights of 2022, Continued

Lauro Cavazos, the 11th dean of the School of Medicine, died on March 15. In addition to his faculty and administrative roles at Tufts, he served as president of Texas Tech University—and as secretary of education from 1988 to 1990 under Presidents Ronald Reagan and George H.W. Bush.

Harris Berman, who served as dean of the School of Medicine from 2011 to 2019 (after having served as interim dean beginning in 2009), died on October 30.

Sheldon Krinsky, the Lenore Stern Professor of Humanities and Social Sciences in the Tufts Department of Urban and Environmental Policy and Planning, passed away on April 23. Krinsky began his more than 47-year career in the Department of Urban and Environmental Policy and Planning in 1974.

² In Fall 2022 there were 58 full-time and 5 part-time transfer students.

³ Continuing first-years are students who first attended Tufts University during a previous Fall semester but remain in freshman class standing.

⁴ Non-degree-seeking undergraduates are enrolled in undergraduate courses but are not enrolled in a degree program.

⁵ Undergraduate Exchange Students are degree-seeking students from another institution who are registered at Tufts for the fall term.

⁶ Postbaccalaureate Premedical Certificate Students are college graduates who are taking undergraduate pre-health coursework for the first time in preparation for health-related careers or graduate education. In Federal IPEDS reporting, they are considered graduate students.

⁷ Tufts Education Reentry Network (MyTERN) certificate is a 4-course undergraduate-level program for individuals impacted by the carceral system.

Degree-seeking Students by Race/Ethnicity and Gender – Federal Methodology Fall 2022

¹ Source: Human Resources PeopleSoft database. Accurate as of November 1, 2022. Includes only those individuals who are paid directly by Tufts University. Individuals with multiple jobs are counted once.

² Includes School of the Museum of Fine Arts (SMFA). In prior years, also included "Arts, Sciences & Engineering (shared)," which became a stand-alone Division in 2020.

³ Includes Graduate School of Biomedical Sciences (GSBS)

⁴ President's Office and Provost's Office were recategorized this year to more accurately reflect the count of paid personnel in each division. Executive Vice President was added as a result of this recategorization.

⁵ Includes Dining Services and Auxiliary Services

⁶ These occupational categories are based on those used for reporting to the National Center for Education Statistics (NCES) Integrated Postsecondary Education Data System (IPEDS) Human Resources (HR) Survey. The categories are derived from the 2018 Standard Occupational Classification (SOC) system, a federal statistical standard used by federal agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data (See <https://www.bls.gov/soc/>). The IPEDS HR Occupational Categories collapse SOC codes into broad categories appropriate for higher education (See <https://surveys.nces.ed.gov/ipeds/visHRSOCBrowse.aspx>). For this table, some additional groups were collapsed for clarity or due to small Ns.

⁷ Faculty include only those individuals who are paid directly by Tufts and whose primary appointment is labeled "Faculty." Administrators who have faculty appointments but who are categorized as staff in PeopleSoft are not included in these faculty counts.

Source: Human Resources PeopleSoft database. Accurate as of November 1, 2022. Counts include only those individuals who are paid directly by Tufts and whose primary appointment is labeled "Faculty." Counts do not include all individuals teaching courses nor all individuals who are being paid for faculty work. Administrators who have faculty appointments but who are categorized as staff in PeopleSoft are not included in these data. Counts do not include individuals on long-term disability.

³ Four tenured Engineering professors hold joint tenured appointments in Engineering as well as other schools. One of the appointments is joint between Chemical & Biological Engineering and Arts & Sciences (Education), and the remaining three are joint with Computer Science—one with the Fletcher school and two with A&S (Psychology and Mathematics). These appointments are counted once in each school, but only once in the university total.

⁴ The total number of AS&E Faculty here represents unique individuals; all those with joint appointments are counted only once.

⁵ The Cummings School of Veterinary Medicine faculty are not eligible for tenure. The faculty shown here include all those with “continuous term” appointments, including those currently serving as university administrators, as well as full-time non-continuous term-track faculty with unmodified titles.

⁶ Two Fletcher professors hold joint tenured appointments with other schools at Tufts. One joint appointment is with A&S (History) and one is with Engineering (Computer Science). These appointments are counted once in each school, but only once in the university total.

⁷ Friedman SNSP did not offer tenure or tenure-track positions until 2006-07.

* Data include spaces occupied and owned by Tufts University or Walnut Hill with the exception of Walnut Hill space leased for residential uses.

¹ Room Type grouping based on Tufts' modified version of the National Center for Education Statistics FICM Appendix F.

² Athletics category includes, for example, pools, gyms, field houses, etc.

³ Classroom category includes, for example, classrooms, auditoria, teaching labs, art studios, etc.

⁴ General Use category includes, for example, exhibition halls, food facilities, merchandizing, etc.

⁵ Health Care category includes, for example, clinics, support space, etc.

⁶ Laboratory category includes, for example, science and engineering research labs, core facilities, support space, etc.

⁷ Office category includes, for example, private or shared or open offices, conference rooms, support space, etc.

⁸ Residential category includes, for example, dorm rooms, support spaces in residential facilities, etc.

⁹ Special Use Facilities category includes, for example, media production, greenhouses, etc.

¹⁰ Study category includes, for example, library space, study rooms, etc.

¹¹ Support category includes, for example, building storage, machine shop, etc.

¹² Unclassified Space category includes spaces that are temporarily inactive, for example, unfinished or areas under renovation.

¹³ Unassignable category includes all spaces that are not usable for occupancy, for example, elevators, public restrooms, public corridors, structural space, etc.

*These data include spaces occupied and owned by Tufts University. Square foot totals do not include leased space that is not occupied by Tufts University, retail space and new building construction.

Energy Emissions

Tufts University Greenhouse Gas Emissions

Tufts has reduced its carbon emissions in accordance with the Kyoto Protocol (7% below 1990 levels by 2012) and is progressing towards the goals of the New England Governors/Eastern Canadian Premiers Climate Change Action Plan (10% below 1990 levels by 2020 and 75-85% long term) and the Massachusetts Global Warming Solutions Act of 2008 (10-25% below 1990 levels by 2020 and 80% reduction below 1990 by 2050). In 2016, President Tony Monaco signed the Second Nature Climate Commitment, an integrated climate commitment for university leaders on carbon neutrality and resilience. This commits Tufts to reach carbon neutrality, essentially zero net carbon pollution, by 2050.

FY21	N/A	N/A	N/A

Data collected by Tufts Office of Sustainability. This data only includes Tufts-owned buildings on the Medford, Boston, and Grafton campuses. Scope 1 and 2 are mainly comprised of energy and fleet. Tufts does not currently have comprehensive Scope 3 data for the years that are blank. Scope 3 emissions are a consequence of the activities of the institution, but occur from sources not owned or controlled by the institution. An example of Scope 3 is air travel by Tufts employees on Tufts business as well as student and employee commuting.

Tufts University Solid Waste Data in U.S. Tons

These numbers represent mixed recycling and trash bins from classrooms, offices and residential areas in Boston, SMFA, Medford/Somerville, and Grafton campuses. Tufts' four campuses recycle a variety of additional materials, such as mattresses, furniture, tennis balls and electronics, to name a few.

¹ Undergraduate represents the total number of individuals receiving each respective number of degrees. It eliminates any duplicates between A&S and Engineering.

² Honorary degree holders include only those honorary degrees that were received by distinguished individuals at commencement, not those who received degrees after not completing coursework due to extenuating circumstances.

³ This total represents the total number of degrees awarded, not total number of individuals who have received degrees.
